

Windsor Championship Dog Show.

Cavalier King Charles Spaniel – Bitches.

30th June, 2012

I would like to thank Windsor Officers and Committee for their kind invitation, and my two stewards who kept things running smoothly, more importantly, I would like to thank all exhibitors who allowed me to examine their dogs at close quarters. Overall the quality was good, there is far more uniformity in type and size, but today I found several wide fronts caused by being too heavy and carrying far too much weight. I was looking for a well balanced bitch with sufficient length of leg and not too long in body. My co judge Caroline Roe and I were in complete agreement for **Best of Breed** and **Best Puppy In Breed**.

Class 1479 OB (7 Entries) Abs: 2

1st: HUGHES - **Ch Loranka's Sherrie Baby JW**

Tri. With an outstanding head with just the right amount of cushioning, she is balanced so perfectly. I gave her a Reserve CC as a junior. I just said that she was flawless to go over everything fits into place. There is little more I can add to all the comments already said in the past about her. I have never seen this bitch out of coat or condition. Her handler must be complimented on the condition and presentation, put down in excellent and sparkling condition, as were all from this kennel. I just had to give her the CC and with my co judge in complete agreement of **Best Of Breed**.
